

Morten Lilleris

Freelance Multi-Camera Director
Vision mixer/TD

As an experienced multi-camera director and vision mixer, I thrive on the challenges of conceptualising and delivering top-tier live productions for television, streaming and corporate clients. I go into every production with great passion, dedication and the ability to remain calm under pressure.

When working with me, you're not just getting a director and vision mixer – you're getting a creative partner who goes above and beyond to exceed your expectations. I take immense pride in planning an executing captivating shows, and my creative reservoir is always brimming with ideas that can transform your vision into reality.

My portfolio includes a diverse range of productions, from small two camera corporate events to grand productions with 20+ cameras. I have experience with all vision mixers and am confident in building shows at all levels.

Key Credits

GAMERS8 – Technical Director

Gravity Media/ESL FACEIT Group – EFG

Technical Director at the Battle Royal Studio for the world's largest esports festival with a \$45M combined prize pool, featuring iconic games like Fortnite and PUBG Mobile. Improved my skills as a Director, especially within preparation and leadership.

Tour of Britain (2021, 2022 & 2023) – Vision Mixer
Century TV/ITV

World feed and ITV Studio for Britains biggest cycling race. Eight Stages from all across Britain with feeds from motorcycles and helicopter on the course and fixed cameras near the finish line. Using my knowledge of cycling to assist the Director tell the stories within the race.

FA Lionesses Live – Director
Vivid Broadcast/FA

Winner Broadcast Sport Award for
Best original content by a rights holder.

Daily live shows from the England Camp during the EURO2022. Providing fans with an exclusive access and interviews from team and guests, the latest news and fun competitions. Culminated with the team departing for their Victory Celebrations at Trafalgar Square.

Pokémon World Championships (2022 & 2023) – Vision Mixer
Esport Engine

World feed and English studio for the Pokémon Unity Tournament. Including building several compositions with up to 12 sources – using RossTalk with Xpression for graphics overlays.

QVC UK – Studio Director
QVC UK

Directed and vision mixed shows across QVC's main and Fashion shopping channels. Improved my leadership abilities and my skills in communicating with the production team and on-air talent.

Credits

Matchday Live/Matchday Live EXTRA – Vision Mixer Premier League Productions/IMG

Vision mixing the studio segments of Matchday Live and Matchday Live EXTRA's live football coverage from IMG Studio. Feeds from multiple venues across the UK, with studio analysis, highlights, graphics and VR/AR graphics.

BRAWL STARS World Finals 2022 – Vision Mixer Esport Engine

Vision mixing the world feed and English studio of the Brawl Stars world finals 2022 held in Disneyland Paris. The setup consisted of 6 cameras – including crane and steadicam, player cameras, gamefeeds, replays and graphics. Building several compositions for various game states with up to 12 sources in some compositions.

Championship League Snooker – Director Loop Productions/Matchroom

Directed the matches on Table 2 of the tournament at Morningside Arena in Leicester. Five days of competition with up to four matches per day. The setup included Newtek vision mixer, 4 PTZ cameras, replay and graphics. The challenge of using only PTZ cameras helped improve my creativity to achieve the best shots and angles.

Academy Football – Director Chelsea FC

Working as the match director on several academy matches from Kingsmeadow or Cobham Training Grounds, produced remotely in the gallery at Stamford Bridge Stadium. Gained valuable knowledge in the remote production workflows and the challenges it poses, as well as working with instant replays and graphics.

National Prayer Breakfast – Director Vivid Broadcast

Directing the National Prayer Breakfast at Parliament, with outputs for both YouTube and in-venue screens. Rigging and de-rigging challenged by working at a heavily secure venue. The set-up consisted of four cameras, slides and lyric overlays. Improved my skills in planning and directing music and choirs with multiple outputs.

Simone Rocha Fashion show – Director Vivid Broadcast/Duck

Directed the Simone Rocha Fashion show at the Old Bailey during London Fashion Week, using Arri Amina cinematic cameras. Participated in recce and planning of camera positions prior to the production. Fast-paced show making camera shot plans valuable. Improved my skills in planning and preparing for productions.

The Drum – Director Vivid Broadcast/The Drum

Directing various Awards and chat shows from The Drums Studio in London and as remote production from Cannes. Creating engaging and entertaining shows, including remote guests, on-location reporters, and pre-produced content. Gained insight into working with an Audience, and how set and light design can improve the overall look for a show.

NIKE: Black History – Vision Mixer Vivid Broadcast/NIKE

A show celebrating Black History and how NIKE have been supporting the movement from the time of Michael Jordan. The show included moving stories told by the presenter, guests and audience and showcased exclusive sneakers. Broadcast exclusively to NIKE's own online platforms.
