

Overview

Freelance lighting camera operator based in London and the South East. I have over 13 years experience in filmmaking and I am proficient in working in all conditions from large scale Live OBs, foreign locations, studios and doorsteps. I'm well practiced in all forms of camera operating including multi-cam, branded content, news gathering, high frame rate, mini-cams, green screens etc. I enjoy it all and make sure this comes across in my work.
